5. Select 'Set up a network manually" and click "Next" button.

6. Click "Finish" button.

Wireless Network Setup Wizard		
((°°))	The wizard completed successfully	
	To set up your wireless network without a USB flash drive, print your settings and manually enter them into each device in the following order:	
	- Wireless access point (or wireless router)	
	- Each additional computer that you want to add to the network	
	- Each wireless device that you want to set up (example wireless printer)	
	Print Network Settings	
	To close this wizard, click Finish.	
	< Back Finish Cancel	

After this setup, the notebook can connect to the wireless LAN of Ho Tim Build., automatically whenever the network is detected.
