Test: 1830 Revolution

General Comment:

1. Most of students are not familiar with the topic of July Revolution in France. They did the worst in this part.

2. Many students cannot answer the question directly. They just presented what they have learnt without analysis and responding to the question. For example, in the July Revolution, short question 3. Many students direct copied the previous exercise. They just pointed out what groups of people they would not choose instead of pointing out the reasons/considerations to choose an appropriate person to be a leader. (Leadership skills/political background/ recognition by great powers/internal and external policy, etc)

3. Some students failed to give evidences/examples to illustrate their points.

4. Most of students did the best for Belgian and Polish Revolt.

Total: 71
Average: 45.1
