Research Agenda of the Institute of Psychology and Education, KFU, in the Context of Global Trends

Abstract

The report describes the research agenda of the Institute of Psychology and Education, Kazan Federal University (KFU), in the context of global trends in psychology and education. Key global drivers as digitalization, inclusive education, lifelong learning, and evidence-based mental health – have shaped the Institute's priorities. These include cognitive psychology in digital environments, innovative teacher training, and socio-emotional learning. The presentation outlines ongoing projects and international collaborations, demonstrating how KFU integrates regional educational challenges with global academic standards. The aim is to explore potential research partnerships and contribute to international debates.
