Department of Educational Psychology &
Laboratory for Brain and Education (LABBE)

Adaptability Of Face Processing In The Brain

Prof. Charles OR

Division of Psychology, School of Social Sciences
Nanyang Technological University, Singapore

Prof. Charles OR is a vision scientist specialized in perception of faces, motion, and form, using combinations of tools including psychophysics, eye-movement recording, electrophysiology (EEG), and computational modelling. He is also interested in studying cultural variations and confidence judgments in visual perception. He is currently Assistant Professor in Psychology at Nanyang Technological University, Singapore. After receiving his M.Phil. (HKU) in his native Hong Kong, he obtained his Ph.D. at York University, Canada, and received postdoctoral training at University of California, Santa Barbara, and University of Louvain, Belgium.
