

Artificial Intelligence Teaching Platform

# COCOCLASS

## AI in Course

Create personalized or project-oriented course frameworks powered by AI recommendations, effortlessly building interactive digital courses.

## AI Assistant

Reduce lesson preparation time, enhance course quality, and create a more personalized, interactive teaching experience.

## Start with CocoClass

CocoClass is an AI-powered education platform developed by CocoRobo that delivers personalized intelligent teaching, learning, and management services across instructional design, classroom delivery, assessment, and self-directed learning to improve teaching quality and learning efficiency.
