Our school joined the 'The Quality School Improvement Project (QSIP)' launched by The Hong Kong Institute of Educational Research of The Chinese University of Hong Kong to promote self-directed learning in school. The QSIP team visited our school and arranged workshops for students and teachers, helped improve the curriculum, teaching and learning as well as assessment strategies of our Chinese and English subjects; creating an active learning culture; strengthening the interaction and collaboration in lessons; and fostering a continuous development of the school in long term.
