
數學教育理學碩士學位課程

Master of Science (M.Sc.) Degree Programme in Mathematics Education

課程總監 Programme Directors： 劉永發教授 Prof. LAU Wing Fat Wilfred
于勇教授 Prof. YU Yong

數學教育理學碩士學位課程為中文大學教育學院與數學系合辦的兩年制兼讀課程，屬首個由數學教育學者和數學科研學者共同籌辦的項目。創辦至今，這個仍然是本課程獨有的特色。本課程充分利用到校園內兩個教學單位協作的優點，課程對象為現職或有志成為本港中、小學數學教師的人士。本課程旨在提升學員的學科及教學知識之餘，亦能啟動學員在數學及教育專業的發展。

本課程由數學、教育及數學教育三個部份組成。數學方面，學員須於數學系開設的碩士課程中選讀三科，以確保學員學科知識的能力在學校課程程度之上。同時，學員亦須增進課程研究及數學教育的專業知識。至於數學教育的學科，將會集中在全球性教育改革下的學與教，以及課程與評估方面。學員可選擇修讀「行動研究」作為課程的總結，以引發教學專業化的知識。

This programme is a joint venture pioneered by mathematics educators and research mathematicians. It is a two-year course offered by the Faculty of Education in association with the Department of Mathematics. The programme takes full advantage of collaboration between two academic units on the same campus, and targets potential and practising mathematics teachers in Hong Kong primary and secondary schools. Its aim is to upgrade programme participants' subject content knowledge and pedagogical content knowledge. It is particularly designed to meet the needs of those with an interest in both mathematics and the teaching profession who wish to pursue further studies.

The programme comprises mathematics, education and mathematics education components. In the mathematics component, participants are required to take three Master-level courses offered by the Mathematics Department to ensure mathematics knowledge and competency that exceed the level of school mathematics. Participants are equipped with professional knowledge of curriculum studies and mathematics education. Courses on mathematics education focus on mathematics teaching, learning, curricula and assessment in the context of the educational reforms taking place worldwide. Participants have the option to conclude their studies by conducting action research, thereby generating knowledge for the professionalisation of teaching.
